Gourav Suman

Full-stack developer · AI apps

gouravsuman2006@gmail.com

Full-stack developer building AI-powered web apps with React, Node.js and MongoDB. I work fast with AI tools like Claude Code, Codex, Cursor and Base44.

Work Experience

Full-Stack Developer (AI)	App Building Studio	2026–Present
- Built domain systems for managing and connecting custom domains. - Developed an AI-powered UGC video generation platform. - Built an AI app builder (vibe coding) that creates SaaS apps and websites from plain-language prompts, with a live preview. - Developed an AI movie generation app.		

Projects

Insurance Claim Verifier (for hospitals)

- AI checks hospital claim documents for missing or mismatched details.
- Tech: React, Node.js, MongoDB, Claude API

Remotion Rendering Server

- Renders React video templates into MP4s through an API.
- Tech: Node.js, Remotion, FFmpeg

Portfolio

- A macOS-style desktop portfolio with an AI chat guide.
- Tech: React, GSAP, Gemini API

Education and Certifications

- Bachelor of Computer Applications, University of Kota

Skills

Frontend	React, Next.js, Vite, Tailwind CSS, Ant Design, GSAP
Backend	Node.js, Express, REST APIs, MongoDB (Mongoose)
AI & Video	Claude API, Gemini API, AI document reading, Remotion
Tools	Git, GitHub, Docker, Render, Postman
AI coding tools	Claude Code, Codex, Cursor, Base44

Strengths

- Proficient in building interactive and responsive web applications
- Strong understanding of UI/UX design principles
- Knowledge of game development
- Quick learner and adaptive to new technologies
- Problem-solving skills and team player
